

## Fleet Parts Manager Program

Frontier Forklifts offers a Fleet Parts Manager Program with access to millions of part numbers for over 100 different brands of material handling and industrial vehicles.

From forklifts to floor scrubbers, this program puts quality parts at your finger tips.

Saves You Time

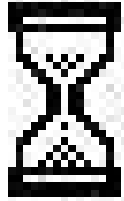

Saves You Money

Gives you Knowledge  
and Control

## Fleet Parts Manager Program

Saves You Time

- No need to call a parts vendor to look up a part and **wait** for the price and availability
- Research and order parts at your convenience 24 hours a day 7 days a week
- Parts orders are drop-shipped to your location--saving **employee time** in driving to a parts vendor for pick up. You can even track the shipping of the order through the program
- Order parts and know the **exact cost** and availability at the **time of order**
- Order **common used parts** quickly with the use of favorites baskets built within the system
- Part orders can be assigned a **PO# printed** and used as a hard copy for the order.

## Fleet Parts Manager Program

Saves you Money

- Parts are quality private labeled parts and do not carry the extra cost of an OEM name. A large number of these parts are the same ones used by the manufacturers.
- Free freight on minimum orders. (some exclusions apply)
- Expected savings of using Fleet Manger Parts over OEM is on average 40% and can sometimes be over 100%.
- Production increase from quicker ordering and no traveling to obtain parts.
- Cross reference feature allows you to cross some part numbers in order to locate them locally in an emergency situation.

## Fleet Parts Manager Program

### Knowledge and Control

- Control who and when parts are ordered. Assign designated personnel passwords to the Fleet Parts Manger Program.
- Fleet Parts Manager Program has useful tools to help mechanics install and trouble shoot certain equipment. This Program includes wiring diagrams, cross references, engine specifications, part pictures, and weights.
- Use the electronic catalog feature to look up and browse parts.
- Look up the history of up to one year's worth of orders.
- Find out the latest part features for material handling equipment.
