

**Three
Wheel**

2,000-4,000 lbs
G Series
AC Electric Forklift

9 SERIES

HELI
LIFTING THE FUTURE

Top 10 Forklift
Manufacturer In The World

**G SERIES
AC ELECTRIC FORKLIFT**

**THREE
WHEEL** **2,000-4,000 lbs**

High Visibility Mast Design

Wide view mast design enhances operator visibility increasing productivity and minimizing the potential for product damage.

- Full face mast channel roller bearings
- 4 Carriage rollers with 4 adjustable side thrust rollers

Steering System

The steering system includes the latest technology providing excellent operation control, optimal load positioning and noise reduction.

- Integrated load-sensing steering
- Dual steer tires
- Hydraulic Power steering
- Automatic travel speed reduction device limits speed while turning

Dual AC Drive Motors

The powerful dual AC drive motors provide enhanced performance, acceleration and gradeability.

- Rugged ZF drive units
- Brushless high torque heavy duty AC drive motors
- Oil-cooled disc brakes
- Independently controlled motors

High Efficiency Hydraulic System

The innovative design of the hydraulic system improves the efficiency of loading and unloading.

- Low-speed high-torque hydraulic pump motor
- MOSFET hydraulic controller
- Low-noise gear pump with differential tooth technology
- Dynamic load sensing technology standard

Ergonomically Designed Operator Compartment

- Seat side hydraulic controls
- Multi-function instrument display
- BDI with lift interrupt
- Operator presence system
- Tilt steering column

Intelligent Performance

- Choice of ZAPI or CURTIS controllers
- AC traction controller
- Emergency power shut-down
- Self protecting controller
- Standard CAN BUS design
- Anti-roll back and anti-roll down with adjustable ramp stop time
- Adjustable travel speed select function

ZAPI CONTROLLER

CURTIS CONTROLLER

Manufacturers specifications

Characteristic				
1.01	Model		CPD10S	
1.02	Configuration Number		CQ1/CQ2	FQ1/FQ2
1.03	Load Capacity@24" Load Center	Q (lbs)	2000	
1.04	Load Center	c (inch)	24	
1.05	Power Type		Battery	
1.06	Wheelbase	y (inch)	49.2	
Wheels & Tires				
2.01	Tire Type		Solid Pneumatic	
2.02	Tire Number (Front/Rear)		2/2	
2.03	Tread width (center of tires),front	b10 (inch)	36.5	
2.04	Tread width (center of tires),rear	b11 (inch)	6.4

- CPD15S
- CPD18S
- CPD20S

Note:
Vertical axis represents load capacity while horizontal axis represents load center. Load center is the distance measured from the front of forks to the center of load. Load capacities will be reduced based upon extended load length, forward tilt or use of attachment.
